

# Installation and Activation

## How to install GrassPainter2

Thanks for purchasing GrassPainter2.

1. To install the plugin, copy or move the folder "**GrassPainter2**" into this path:  
Applications -> MAXON > Cinema4D > Plugins, then quit and restart Cinema4D.
2. To activate GrassPainter2, start it from **Plugins** menu and copy the **Installation Code** (CTRL + C).
3. Click "**Get your Key now**" button and you'll be redirected on **C4Dzone** into your **Orders list**. (if wrong browser will be open, try with your preferred browser and go to your Orders list).
4. Search your **GrassPainter2** order.
5. Click the little **magnifying glass** button to open the order and paste the Installation code into Poly Breaker field and hit the "+" button.
6. After some seconds the **License Key** appears. If an error appears, try again by using the same form. Don't use a new form field.
7. Copy your **License Key** from site (CTRL + C) and paste it (CTRL + V) into **GrassPainter2**.
8. Press "**Activate your License**" button.
9. Now your Licence is active. If you got error during activation into GrassPainter2 verify by paste again the License Key into GrassPainter2. If you got error again maybe you have **permission problems** into Cinema 4D **Plugin** folder (on windows systems). In the **Documentation** folder there is a PDF "**Edit-Permissions.pdf**". Don't generate other License Keys on C4Dzone.com because the key you got is correct.

Warning!:

Poly Breaker has been activated based on your hardware configuration, there is not connection between GrassPainter2 and Cinema4D serials, so if you need to reinstall your Cinema4D or change its serials you can find the Licence Key into C4Dzone order details, otherwise you can backup your GrassPainter2 folder already activated. The License Key works only on this computer.

GrassPainter2 can be activate for max 3 times, based on 3 different hardware configurations.

If you need help feel free to visit our support forum on [www.c4dzone.com](http://www.c4dzone.com) on [Plugin C4Dzone](#) section or write to [matteo@c4dzone.com](mailto:matteo@c4dzone.com).

Thanks to you
